

PRATHMESH MISHRA

Software Engineering Intern Candidate | M.Tech (Integrated) CSE | AI/ML/DL • Full-Stack Web • Cloud

+91 7094954915 | prathmeshmishra.5810@gmail.com | linkedin.com/in/prathmeshmishra07 | github.com/Prathmesh5810 | Chennai, Tamil Nadu

CAREER OBJECTIVE

Results-driven M.Tech CSE candidate specializing in AI/ML, Full-Stack Web Development, and Cloud Computing. Certified by Google, Microsoft, and industry leaders with 20+ credentials in LLMops, Gemini, and Google Cloud Security. Seeking a software engineering internship to apply production-ready skills in Python, React.js, Node.js, and Flutter toward solving complex, real-world industry challenges.

EDUCATION

M.Tech (Integrated) in Computer Science & Engineering | Sri Sai Ram Engineering College, Chennai (Anna University)
2024 – 2029 (Expected)

Higher Secondary — Science (PCM + CS) | Kendriya Vidyalaya No. II, Kalpakkam | Graduated 2024

TECHNICAL SKILLS

- Programming Languages:** Python, C, Java, MySQL, JavaScript
- Web Development:** HTML5, CSS3, JavaScript (ES6+), React.js, Node.js, REST APIs
- AI & Machine Learning:** Data Preprocessing, Feature Engineering, Model Training & Testing, Deep Learning, NumPy, Pandas, Matplotlib, Scikit-learn, Large Language Models (LLM), LLMops, Prompt Engineering
- Mobile & Cloud:** Flutter, Dart, Google Cloud Platform (GCP), Serverless Computing, Git, GitHub, Jupyter Notebook, VS Code
- Core Concepts:** Object-Oriented Programming (OOP), Data Structures & Algorithms, Version Control, Agile, Debugging & Testing

WORKING EXPERIENCE

- INTERSHALLA STUDENT PARTNER** - AUGUST 2026

CERTIFICATIONS

- Google Cloud Skills Boost** — Gmail & Google Cloud Security (Jun 2026)
- Google Cloud Security** — Introduction to APIs in Google; AI Infrastructure: Networking Techniques (Aug 2026)
- Google Developer Experts** — Google Assistant Actions & Google Gemini Development (Jun 2026)
- Google Developers Group (GDG)** — Build Apps with Flutter | LLMops & Gemini (Jun 2026)
- Microsoft Learnathon '25** — AI & Generative AI Basics | Microsoft Copilot (Oct 2025)
- Udemy** — Web Development, AI, Machine Learning & Data Science (multiple); MySQL for Beginners: A Complete Training for Beginners; The Complete SEO Guide: SEO For Beginner to Expert (2024–2026)
- Cisco** — Networking Basics (Dec 2024)
- MongoDB** — MongoDB Basics for Students (Jul 2026)

PROJECTS

- FRIYEN — AI-Powered Predictive Road Intelligence Platform** | *Python, Machine Learning, Computer Vision* — Designed an intelligent road safety system that uses predictive AI models and real-time data to identify infrastructure risks, enabling proactive maintenance decisions for safer roads.
- Face Detection System** | *Python, OpenCV* — Built a real-time multi-face recognition system using OpenCV with live camera feed support; capable of simultaneously detecting and tracking multiple faces.
- Voice Assistant (Jarvis)** | *Python, NLP, Speech Recognition* — Developed a Python-based AI voice assistant using NLP libraries for task automation, web search, system commands, and contextual responses.
- AI Chatbot** | *Python, NLP, Intent Detection* — Created a conversational chatbot using NLP techniques for automated intent detection and query response handling.
- Grocery & Café Management Systems** | *Python, OOP, Data Persistence* — Built two separate management systems featuring inventory tracking, billing, role-based access, and CRUD operations using Python and OOP principles.
- Ship Ticket Booking UI** | *Python, Tkinter* — Designed a desktop GUI application for ticket reservation and booking management using Python's Tkinter framework.

AREAS OF INTEREST

- Artificial Intelligence & Generative AI** — Large Language Models, prompt engineering, AI application development
- Full-Stack Web Development** — End-to-end applications with React.js, Node.js, and REST APIs
- Cloud Computing** — Google Cloud Platform, cloud-native app deployment, serverless architectures
- Mobile App Development** — Cross-platform applications using Flutter & Dart

EXTRA-CURRICULAR & ACTIVITIES

- Participated in intercollege technical fests, hackathons, and coding competitions.
- Attended AI, ML & Cloud workshops and seminars hosted by Google Developer Group (GDG) and Microsoft.
- Active self-learner: completed 10+ courses on Udemy, Microsoft Learn & Google Cloud Skills Boost beyond academic curriculum.
